Subject: DOT STIP
Build it NOW

As a business that depends on the independent traveler we support the road INTO Juneau. The economic benefits to the Northern Southeast Region easily justify the cost of building this road... and the improved ferry access that will be given to the outlying towns is a huge bonus.

The Lynn Canal Highway is the most important project in this amendment and we support placing it higher on the priority list and moving the funding into earlier fiscal years so we can make it happen in the next five years. No other project in the state will save as much money for the state and for users.

This issue has been "on the books" since the 1960's and NOW needs to become a reality!

We also believe the state should keep pursuing the extension to Skagway!
